

General Staff Meeting

December 12, 2023

SIMON FISHER

Agenda, Staff Meeting December 12, 2023

1. News from the MD
 - a. Departures and Arrivals
 - b. PhD defenses
 - c. Upcoming events
 - d. Honours and awards
 - e. New call Levelt Award 2024
2. News from Data Protection Committee
3. News from TG
4. News from Research Facilities Committee
5. News from Communications
6. News from Colloquium Committee
7. News from Library Committee
8. News from Diversity, Equity & Inclusion Committee
9. News from Research Staff Committee
10. News from Equal Opportunities

End of year Party from 15.30 on...

Departures and arrivals

Research Staff (RS), PhD students, other staff and long-term guests leaving

Joery den Hoed	RS	31.12.23
Willeke Menks	RS	31.12.23
Sonja Vernes	RS	31.12.23
Esther Holl	Support staff	31.12.23
Luise Janssen-Ekat	Support staff	31.12.23
Edith Sjoerdsma	Secretary	31.12.23
Ivy Mok	RA	14.01.24
Danbi Ahn	RS	31.01.24
Talat Bulut	RS	31.01.24
Ambra Ferrari	RS	31.01.24
Laura Giglio	RS	31.01.24
Ashley Lewis	RS	31.01.24
Ann-Katrin Ohlerth	RS	31.01.24
Müge Sertel	RS	31.01.24
Noortje Seydel	RS	31.01.24
Daniel Sharoh	RS	31.01.24
Rinus Verdonschot	RS	31.01.24
Hatice Zora	RS	31.01.24
Marjolijn Dijkhuis	RA	31.01.24
Agnes de Boer	Reception	31.01.24

Departures and arrivals

New Research Staff (RS), PhD students and other staff (present)			Department/Group
Hafeez ur-Rehman	Technical staff	01.09.23	Multimodal Language
Remco Diever	Facility Manager	01.09.23	Operations
Mounika Kanakanti	Technical staff	01.10.23	Multimodal Language
Sachit Misra	Technical staff	01.10.23	Multimodal Language
Thijs Rinsma	Technical staff	01.10.23	TG / Psychology of Language
Arnold Harbers	Support staff	01.10.23	Operations
Esther Apswoude	Reception	15.11.23	Operations
Anne Buizer	RA	15.11.23	Language Development
Marthe Meijer	RA	15.11.23	Language Development

New Research Staff (RS) and PhD students (expected)			Department/Group
Chinmaya Mishra	RS	01.01.24	Multimodal Language

New Guests (present)

Host

New Guests (expected)

Host

Carmen Ramoser	PhD (MPSCog)	01.01.24
Danielle Naegeli	PhD	01.01.24

Simon Fisher
Limor Raviv

PhD defenses since last Staff Meeting

Julia Egger on November 16
“Need for Speed?
The role of speed of processing in early lexical development”

Naomi Nota on December 6
“Talking faces:
The contribution of conversational facial signals to language use and processing”

Upcoming PhD defenses

Lyn Eekhof on January 15, 2024

“Reading the Mind: The Relationship Between Social Cognition and Narrative Processing”

Midas Anijs on January 31, 2024

“Probing neuronal and molecular underpinnings of language-related disorders using human stem cell-derived neuronal networks”

PhD representatives – who are we?

Orhun Uluşahin **PoL**

Clara Kunst **LaDD**

Danielle Admiraal **L&G**

Tianai Dong **MLD**

Jennifer Sander **LaDD**
External PhD Rep

phd-reps@mpi.nl

Upcoming Events 2024 – Save the dates

June 5 – 7

IMPRS Conference 2024

June 17 – 21

MEDAL Summerschool

MPI General Staff Meetings

March 12 * June 04 * September 17 * December 17

MPI Proudly Presents

July 04

April 3-5

The Neurobiology of Language Department: The Legacy

July 8-11

Language in Interaction – Highlights in the Language Sciences
Conference

Farewell lecture Peter Hagoort

September 27

Cold Spring Harbor Course in NY July 25 - August 1, 2024

- Why are children able to acquire highly sophisticated language abilities without needing to be taught?
- What are the neurobiological and neurophysiological processes that underpin human speech and language, and how do they go awry in developmental and acquired disorders?
- Which genetic factors contribute to this remarkable suite of human skills, and are there evolutionary precursors that we can study in other species?
- [Genetics & Neurobiology of Language 2024 | CSHL](#)

MPI – Donders Institute

Donders Sessions & Theme Meetings hosted at MPI in 2024

January 18, 2024

May 16, 2024

Honours and awards - Congratulations

Eleanor Huizeling awarded Honorable Mention at 15th Annual Meeting of Society for Neurobiology of Language

Letterprins awarded several prizes

New call Levelt Award 2024

2021	Rowena Garcia	LaDD	<i>From syntactic constituents to information chunks: A cross-linguistic study</i>
	Yevheniy Skyra	LaDD	
	Natalia Levshina	NBL	
2020	Nienke Hoeksema	NBL	<i>Speech, vocal learning, and the laryngeal motor cortex in seals</i>
	Laura Verga	Comparative Bioacoustics	
2020	Tineke Snijders	LaDD	<i>Decoding abstract semantics in space and time; evidence from MEG in pre-school children</i>
	Francesca Carota	NBL/Group Indefrey	
2019	Christina Bergmann	LaDD	<i>Learning in a noisy channel: Combining fast mapping and non-literal inference through the lifespan.</i>
	Laurel Brehm	PoL	
2019	Xiangzhen Kong	L&G	<i>The Brain Speaks: Can Brain Scans Predict Language Skills?</i>
	Yingying Tang	NBL	
2017	Dick van den Broek	NBL	<i>From genes to language: how CNTNAP2 affects sentence processing</i>
	Marvin Uhlman	NBL	
	Midas Anijs	Neurogenetics of Vocal Communication	
2016	Sonja Vernes	L&G	<i>Vocal turn-taking in the pale spear-nosed bat (<i>Phyllostomus discolor</i>)</i>
	Kobin Kendrick	Language and Cognition	
2015	Suzanne Jongman	PoL	<i>Attentional support for novel word learning.</i>
	Richard Kunert	NBL	

Deadline for submission, May 15, 2024,
winners will be announced during Proudly Presents on July 4, 2024.

Data Protection

Updates staffmeeting 12 December 2023

Patricia Manko

Team behind privacy@mpi.nl

Patricia Manko
Data Protection Coordinator

Tobias van Valkenhoef
IT Security Officer

Annelies v. Wijngaarden
DPCo Deputy

Reiner Dirksmeyer
Head of TG

Chat GPT 4/ Open AI

Minerva messenger/Mattermost

New feature: ChatGPT(Beta)

Statement Data Protection Officer Heidi Schuster (headquarters):

- + chat bot does not send personally identifiable information such as names or email addresses to OpenAI during usage; anonymizes user interactions
- **BUT** OpenAI processes the information provided in the course of your use of this service to generate appropriate responses (!)

ChatGPT 4/ OpenAI

Information
Sensitivity

do not provide any ***sensitive personal information***,
unpublished research data, or ***confidential documents***
in your interactions with the ChatGPT Mattermost Bot

Translates to ALL other chatGPT add-ons (e.g. browser extensions) but
also all other (US-based) services like Google translate etc.!

ChatGPT 4/ OpenAI

Please use your common sense when installing browser extensions, using chatbots and other services e.g. anything you can use and install without TG

Think about the what kind of information you are entering in these services and if it is safe to do so (safe = not harmful to your company and participants)

When in doubt: privacy@mpi.nl

Reminders

Data breach?

Contact: data-breach@mpg.de & privacy@mpi.nl

Data Protection training

Mandatory for all employees, **also for interns, lab rotation students, guests**
Haven't received training yet? Contact us!

TG

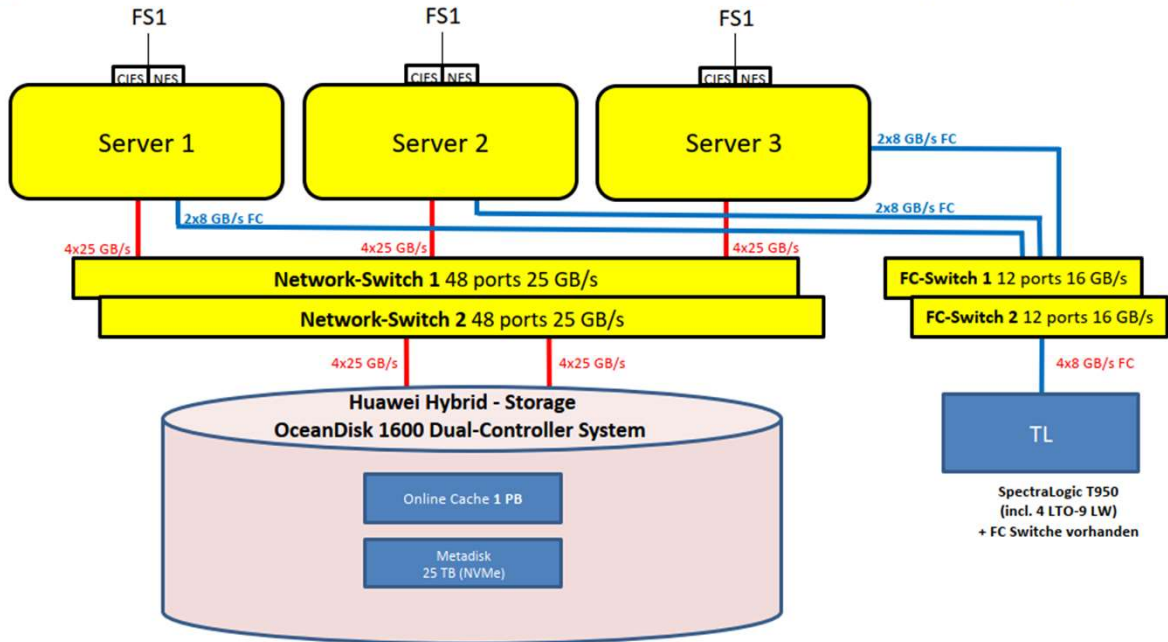

STAFF meeting 12 December 2023

Short report:

- **BAR request: New Storage Infrastructure request approved on 05-Dec-2023!**

Systemaufbau ScoutAM Filesystem (HSM)

Kosten: 488.000 EUR für 1 PB Online Cache, Lizenz für max. 5 PB (incl. 5 Jahre Wartung/Lizenz)
 Stromverbrauch: **Typical 2,3 KW**, IOPS: 545.685

Short report:

- **2FA:**
 - mandatory for all SSH and RDP connections from outside
 - problems with locked PC's (ticket for GWDG)
 - 2FA for VPN and SSLVPN will follow
- **Windows 11:**
 - about 60 PC already migrated to Windows 11
 - 50 PC need to be done
 - rest: replace with new PC (until Oct-2025: end of support for Windows 10)
- **GWDG break-in:**
 - break-in with old hacked account end September
 - forensics company was commissioned (Microsoft)
 - password hashes were copied
 - password of all users managed by GWDG had to be changed
 - about 100.000 accounts affected...
 - 2FA will help....

Short report:

- **Lab rebuild actions:**
 - Motion capture lab (room 144/145) will be ready end January
 - Gesture lab (room 148/149): reconstruction ready end January, camera equipment ready Q1/24
 - Multi-subject experiment moved from gesture lab to room 070 (video recording) and 066 (TG)
 - Experiment room 134 has been demolished and is being refurbished as an office

Research Facilities Committee

RFC December 2023 meeting summary

RUTH CORPS

Short summary

- **Upgrade internet connection from 1 to 10 Gbit/sec:**
 - Speed up network to or from the outside
- **Purchase Mentimeter software:**
 - Software used to create presentations with real-time feedback
 - 2 Licenses ordered for one year for all departments
- **ChatGPT4 enterprise for the MPG:**
 - GPT-4 is a multimodal language model; capable of taking images as input
 - MPG will negotiate a framework agreement with OpenAI

Timing issues in Presentation

- Timing is not always accurate in Presentation if using the default settings with audio/video stimuli
 - This is an on-going issue, even if you use scripts created by other researchers

You are here: [Home](#) → [Research](#) → [Experimentation](#) → [Technical information](#) → Presentation support

Presentation support

Presentation is the supported software for hardware configurations in the basic behavioral experiment rooms, EEG lab, and Tobii eye trackers.

For hardware questions contact Johan Weustink or the lab manager.

Presentation is a stimulus delivery and experimental control software system for neuro-science. It was designed for behavioral and physiological experiments that collect fMRI, ERP, MEG, reaction time, and electro physiological data. Presentation has many features that make it applicable to a diverse range of applications. Presentation is also completely programmable with help of a description- and a control language. More information on Presentation and on the Pipeline code project can be found on [Christian Forkstam's website](#).

If you need to set up a new experiment you can ask for support from Maarten van den Heuvel. Send him an e-mail and describe your experiment as detailed as possible.

!WARNING! If you use **audio or video stimuli** requiring accurate timing, Presentation requires things to be set up in a specific way which may not be intuitive. Please contact Maarten (via a TG-ticket, helpdesk@mpi.nl) to ensure that the settings are correct! See also [this document](#).

Empower the next generation of linguistics

MEDAL's mission is to build expertise in data-driven linguistic methodology across the international consortium. We do this by:

- ✔ Supporting early-career researchers with mobility grants
- ✔ Developing collaborative research projects between the partner institutes
- ✔ Providing training in linguistic research methods and soft skills

Join the linguistics conversation

The new Maxintra

Media Output

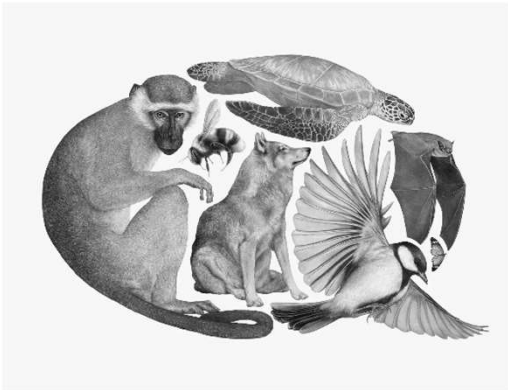

The New York Times Magazine: The animals are talking. What does it mean?

One high-profile example came in 2001, when a team led by the geneticists Cecilia Lai and Simon Fisher discovered a gene — called [FoxP2](#) — in a London family riddled with childhood apraxia of speech, a disorder that impairs the ability of otherwise cognitively capable individuals to coordinate their muscles to produce sounds, syllables and words in an intelligible sequence. Commentators [hailed FoxP2](#) as the long sought-after gene that enabled humans to talk — until the gene [turned up in the genomes](#) of rodents, birds, reptiles, fish and ancient hominins such as Neanderthals, whose version of FoxP2 is much like ours. (Fisher so often encountered the public expectation that FoxP2 was the “language gene” that he resolved to acquire a T-shirt that read, “It’s more complicated than that.”)

≡ The New York Times Magazine

The Animals Are Talking. What Does It Mean?

Language was long understood as a human-only affair. New research suggests that isn't so.

VRAGEN EN ANTWOORDEN OVER STOTTEREN

Op 22 oktober 2023 was het Wereldstotterdag. In aanloop naar die dag verzamelden wij bij het Max Planck Instituut voor Psycholinguïstiek jullie vragen over stotteren en over wetenschappelijk onderzoek naar stotteren. Onderzoekers [Else Eising](#) van het Max Planck Instituut en [Marie-Christine Franken](#) en [Lottie Stipdonk](#) van het Erasmus MC in Rotterdam hebben alle vragen voorzien van een antwoord.

ONTSTAAN VAN STOTTEREN

Hoe ontstaat stotteren? 

Speelt het DNA een rol bij stotteren? 

Ik stotter; wat is de kans dat mijn kind ook gaat stotteren? 

Tot op welke leeftijd kan stotteren ontstaan? 

Hebben jongens meer of minder last van stotteren dan meisjes? 

Wat is de invloed van gevoelens en emoties zoals angst op stotteren? 

Kan stotteren aangeleerd worden? 

Zijn er factoren die in verband staan met hersteld stotteren? 

Dr. Else Eising >

Dr. Marie-Christine Franken >

Library Committee Report incl. Open Science Ambassadors

Staff meeting December 2023

LIBRARY COMMITTEE / OPEN SCIENCE AMBASSODORS

Notes from the Future

Organised together with the Max Planck Institute for the History of Science, the Bruner Library workshop 'Notes from the Future' took place from 13 to 16 November 2023. Four days of talks, discussions and of course exploring the library itself.

- In the first part (November 13th-14th) we use Bruner's library as a prism to look at the scientific production in psychology and social science over the twentieth century, as well as analyze the role of the archive and libraries in the research practices.
- In the second part (November 14th-16th), we focus more specifically on the paradigm shifts from behaviorism to cognitive science to neuroscience.

Missed the workshop?

All info, program as well as recordings of the talks are here:

<https://maxintra.mpi.nl/library/notes-from-the-future-workshop-13-16-nov-2023>

Recent publications on display

Recent publications are displayed on 3 publication stands throughout the building: Common Ground, First floor Landing, and Second floor landing.

On display:

- Three most recent News Items based on publications together with their respective papers.
- Two publications of each department/research group from our quarterly the Staff Meeting publication list. After each staff meeting a new selection is being made.

Visit <https://www.mpi.nl/page/recent-publication-display>

Scan the **QRcode** (on the stand) to get the list of publications on your mobile device.

Elsevier Agreement live

We are now able to access all current content of Elsevier journals!
In addition, as corresponding author you can now publish open access via MPG funding in Elsevier journals.

Your article has to be accepted after 16 October 2023.

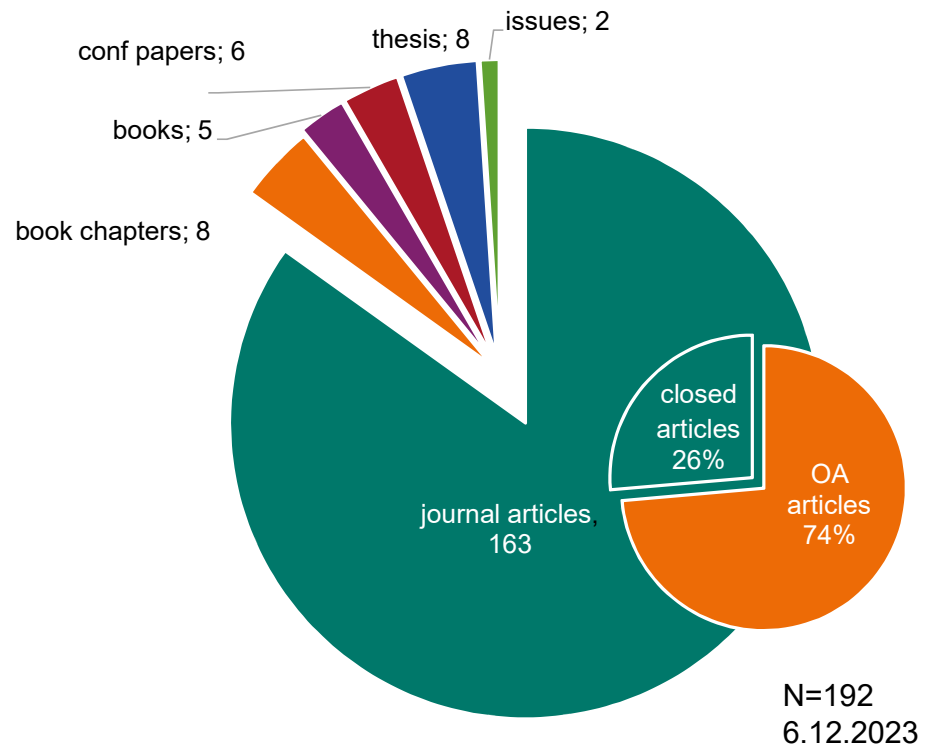

Please [see here](#) for all the details.

Please contact the librarians at library@mpi.nl if you have questions.

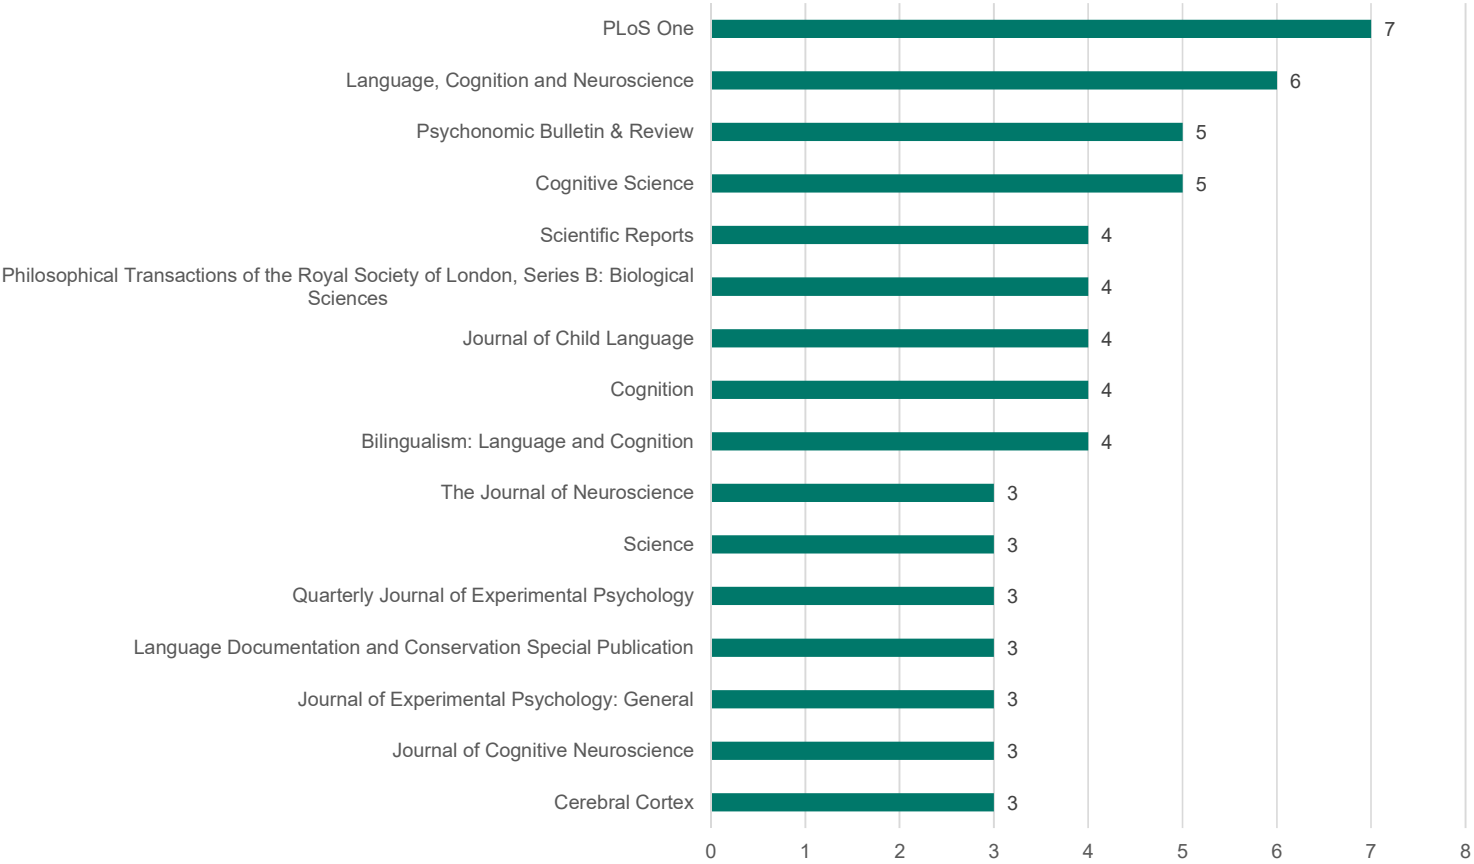

ELSEVIER

Publication overview 2023

The journal in which we published in 2023

163 journal articles
120 open access

92 different journal titles

Open Science is high on the agenda of research politics

- UNESCO, European Commission (Horizon Europe, and ERC) • USA: Year of Open Science • European Open Science Cloud (EOSC) • National Research Data Infrastructure (NFDI) • Future Research Data Act (Germany)

Max Planck Position re Open Science (G6 statement on Open Science):

- Future research assessment should incentivize the provision of Open Access, FAIR data, software, tools, and active contributions to Open Science, and in this way enable the appreciation of the work involved.
- Researchers and support staff must gain the knowledge and skills required to embrace new open science practices, and new roles must be introduced in the RPOs staff.

Open Science Ambassadors

Open Science Practices Survey:

Diversity & Inclusion at MPI

Staff Meeting 12 December 2023

CANDICE FRANCES – D&I CHAIR

Who we are

The Diversity and Inclusion Committee (Candice Frances)

Our goal is to improve diversity, equity, and inclusion at MPI in three key areas:

- Attracting Diversity to MPI-PL (Julia von der Fuhr)
- Diversity and Inclusion at MPI-PL (Sandra Bethke)
- Diversity in our Science (Barbara Molz)

New things since September

- SAP/SAT (Social Activity Planning/Team)
 - Monthly Friday drinks (VrijMPIbo) at 16:30
 - TBD monthly game nights (depending on interest)
 - Wanna propose/plan an event? Hit us up!
- Survey report!
 - Finally (almost ready)
 - Will be up on MaxIntra
 - Will post bits and pieces on the Newsletter
 - Prize winner! Dick Schijven

How to get involved in the D&I movement

- Join the Committee (or subcommittees)
 - Email diversityinclusion@mpi.nl (note these emails are received by all committee members)
 - Email candice.frances@mpi.nl (chair)
- Email ideas and suggestions to the committee
- Do/support diverse and inclusive science!
 - Collection of articles from Nature Human Behavior: <https://www.nature.com/collections/daficfhiff>

Research Staff Committee

YAYUN ZHANG

Purpose of the Committee

- Forge connections between research staff members across departments (e.g., organizing social events or workshops).
- Provide support for research staff members with issues that are broader than those that can be addressed within their department (e.g., COVID policies, administration issues, training opportunities, or career planning).
- External staff representative represents the scientific staff of our institute at MPG-wide meetings

MPI now full member of Donders Institute

Network organisation

The Donders Institute for Brain, Cognition and Behaviour is a network organisation of the Radboud University, consisting of six partnering institutes:

- Donders Centre for Cognition (DCC);
- Donders Centre for Cognitive Neuroimaging (DCCN);
- Donders Centre for Neuroscience (DCN);
- Donders Community for Medical Neuroscience (DCMN);
- Max Planck Institute for Psycholinguistics (MPI);
- Centre for Language Studies (CLS).

More postdoc events!

<i>Month/Year</i>	<i>Event Theme</i>
January 2024	Academic (CV tailoring, job negotiations, conflict resolution)
March 2024	Grants – which grants are available, where to get funding for different purposes (staff, equipment etc.)
May 2024	Grant writing + narrative CVs (persuasive writing styles)

Academic + social event in spring!

- RSC and PhD reps will have the first planning meeting on **Jan 16th**

Contact information

To all staff: Don't hesitate to contact any of us if you have issues or questions!

RSC@mpi.nl

Gender Equality Officer

Staff meeting 12 December 2023

KARIN KASTENS

Gender Equality Officer (GEO's)

Who are we?

- Every Max Planck Institute has Gender Equality Officers.
- We support everyone!

What do we do?

- Point of contact for employees for concerns/issues about inequality, discrimination, harassment
- Structural involvement
 - Increase visibility of Gender Equality Work and Support channels
 - We closely work together with the Diversity & Inclusion Committee, participate in projects like the Vitality Event
 - Regular meetings with MD, HR, COO, & the other support channels

Information for Newcomer Events 2024 – 10am

- February 1
- May 23
- September 12
- November 28

Gender Equality Plan 2024-2026

The current plan needs to be updated. That's an obligation from the MPG.

If there is an issue / problem who think we should address in the new plan, please come or send an email.
